SE REVOIR

Happiness is Meeting Again after a Long Time

Distance can sever the connection that has been built over years. The return of our dear students of Class X, almost after a year, definitely added beams to the sombre atmosphere of our campus. After their return, the teenagers had been quarantined in their single room accommodation while continuing with their lessons online. As their RT-PCR tests get done in campus, offline lessons resumed. A year long, in person interaction with this vibrant batch, was awaited. Shout out to all the good vibes!

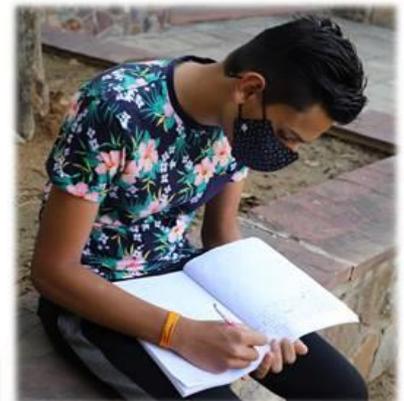

USHERING INTO
A HEALTH ZONE

Dishita Mukherji, a student of Class X shares her thoughts: *"It might be stormy now, but it doesn't rain forever" was a quote I lived by through the year of 2020. Who could have mentally conceived being stuck at home for eleven months! "Return to school" notice gave me the assurance of how everything could get back on track. How running to Classes could be mundane and internet connection wouldn't be a quandary anymore! 2021 started feeling like an usual year. Staying at home made me realise how glorious school life is.*

Life slowly gets back on the rails, giving us a chance to celebrate the bounty of Nature. The campus is once again vibrant with the presence of the students and their activities. They are everywhere and into everything. The bicycle is a symbol of progress, of renewal, of promising times ahead. Our students have taken to cycling to enhance their endurance. Sports and extra-curricular activities have the power to inspire, to unite people and bring hope into our lives. Our students engage in various forms of recreational events to balance their physical and emotional wellbeing.

NOTHING COMPARES TO THE SIMPLE PLEASURES OF LIFE!
